**Posts:** Christmas is one of the popular festivals in Britain and in the world. This festival falls on December 24th. It is the time when people celebrate the birth of Christ. People decorate their home, eat a large meal with pudding cake. On this day, the children write letter to father Christmas. The reindeers pull his sleigh to houses. He gives a lot of different gifts to the children and he puts gifts in the stoking.
- Tet holiday is the most important festivals for Vietnamese people. Tet is a festival which occurs in late January or early February. It is a time for families to clean and decorate their home, and enjoy special food such as sticky rice cakes. Family members who live apart try to be together at Tet. Children receive red envelopes containing money from their elders. This tradition is called "mung tuoi" (happy new age) in the north and "li xi " in the south. And merry Christmas and happy new year [Top](#)

- Posts: Last summer vacation, I went to my hometown with my family. My hometown is Phu Tho. It's about 100 km from my house to there so my family went by car. It took about 3 hours. We didn't do much for the first day because we were very tired. On the second day, my family went to visit my relatives. We had a cozy meal together. We were very happy and pleasant. On this day, I spent most of the time in grandmother's house. I sat next to my grandmother and listened to her telling many stories. They were very interested. On the third day, my parents took me to see the rice paddy, the gardens, the rivers...in my hometown. They were very beautiful. In the afternoon, I and my sister flew the kites on the hill. It was very interesting. I saw many buffaloes with many children. The buffaloes were grazing grass. The children were fluting. What calm and peaceful! On the fourth day - the final day, we went to Hung Temple in the morning. In the afternoon, we returned to Ha Noi. the vacation finished. [Top](#)

- My name is Ngoc. I am learning at Yen Hoa secondary school in Viet Nam. I am in class 7A. Last week, my class had an interesting conference with students in Malaysia. All the students in my class like that conference very much. We knew many new things about Malaysia. Students of this country told about their school day, their activities in their free time, their dreams,... Those students also told something about their country. We knew their country's official flower is hibiscus. Malaysian students sang a song of their country. We like it very much. We also told something about Vietnamese students. We told about our recess, our subjects at school, our favourite songs, beautiful dreams,.... We told about our country's official flower. It's lotus. We told about interesting places in Viet Nam. I think the conference was very funny. I had a lot of new friends. I want to have many conferences with students of other countries and these conferences will have more questions.

# The outcomes of the project

- School: Yen Hoa Junior High School
- Student: Nguyen Minh ngoc
- Class: 7A
- After taking part in the project, I know more about many countries in the world. Malaysia is one of the examples. I know that this is a multiracial country. The Malaysian, the Chinese, and the Indian live all together there. One Malaysian student shared his story about the Tet holiday of the Chinese on the forum: Once upon a time there was a monster, which usually did the villagers harm. One day, a wise man raised a good idea. He and other villagers burnt bamboos to make noise. Hearing the noise, the monster was very scared and ran away. Since then the Chinese have fired crackers on the Tet holiday to wish each other a peaceful and happy new year.

# The outcomes of the project

About the topic New Year, some students from Taiwan and Thai Lan said: New year holiday is also their winter holiday. They told that the 20 September in Thai Land is not only the day for the youths but also the day for people to protect the environment. On this day, people plant trees, collect waste paper, old plastic, scrap metal and recycle them. Moreover, thanks to the project, I make friends with many students from other countries in the world. We often communicate with each other by posting the messages on the forum of the students' website. My friend Jidapa Konthongsamutr, from Sainampeung school , Bangkok, Thai Land has just introduced to me an attraction in Bangkok. That is Wat Pharabuddhabat Saraburi Temple.

Thank you for your attention
