

RESEARCHER LINKS

www.britishcouncil.org

Grants Awarded: Researcher Links Workshop Grant – September 2014 call

Title of project	UK Institution	Vietnam Institution	Subject area
UK-Vietnam workshop on Innovation in Chemical Engineering for Sustainable Environment and Energy	School of Chemical Engineering and Advanced Materials, Newcastle University	School of Chemical Engineering, Hanoi University of Science and Technology	Engineering and Physical Sciences

Grants Awarded: Researcher Links Workshop Grant – July 2015 call

Total applications: 4

Total eligible applications: 4

Funded applications: 2 (50%)

Title of project	UK Institution	Vietnam Institution	Subject area
Translational Skin Biology: Targeting Traditional Herbal Medicine towards Developing Technical Strategies and Strengthening Cooperation	Blizard Institute, Queen Mary University of London	Centre for Molecular Biomedicine, University of Medicine and Pharmacy Ho Chi Minh City	Engineering and Physical Sciences
Development and Applications of Advanced Biomaterials and Medical Devices to Improve Health Outcomes of Underserved Populations	Faculty of Engineering and Science, University of Greenwich	International University, Vietnam National University - Ho Chi Minh City	

Grants Awarded: Researcher Links Workshop Grant – July 2016 call

Total applications: 7

Total eligible applications: 6

Funded applications: 3 (43%)

Title of project	UK Institution	Vietnam Institution	Subject area
Developing a research agenda to ensure Vietnam's Secure, Sustainable and Resilient Energy Supply (VS2RES) Workshop	School of Built Environment, University of Salford	Faculty of Engineering Technology, Can Tho University	Energy
Developing abiotic stress tolerance in rice	School of Biosciences, University of Nottingham	Cuulong deta rice research Institute	Environment, Agriculture and Food Sciences
Practical Workshop for Clinical Trials	School of Medicine, Dentistry and Biomedical Sciences, Queen's University, Belfast	School of Public Health, University of Medicine and Pharmacy, Ho Chi Minh City	Biological and Medical Sciences

Grants Awarded: Researcher Links Workshop Grant – April 2017 call

Total applications: 15

Total eligible applications: 12

Funded applications: 5 (33%)

Title of project	UK Institution	Vietnam Institution	Subject area
Development of Heparin and HS glycotherapeutics	University of Liverpool	School of Medicine and Pharmacy, Vietnam National University - Hanoi	Biochemistry, Medicine, Glycobiology
UK-Vietnam Workshop on Green Electrochemical and Materials Processing for Environment and Energy Challenges	University of Strathclyde	School of Chemical Engineering, Hanoi University of Science and Technology	Chemical Engineering, Material Science and Technology, Chemistry
Connecting to the smart cities - Developing a road-map to explore big data analytical solutions to address Mekong Delta's current challenges	School of Built Environment, University of Salford	Dragon-Mekong Institute, Can Tho University	Civil Engineering
Microfluidics, Nanomaterials, and Point-of-Care in Healthcare for developing countries	University of Sheffield	International University, Vietnam National University - Ho Chi Minh City	Medical Technology, Biochemistry, Medicine
Cascading human-natural hazards in the Red River – Hanoi – Delta: First steps toward developing a coastal megacity catchment observatory	British Geological Survey	Center of Multidisciplinary Integrated Technologies for Field Monitoring, University of Engineering and Technology, Vietnam National University - Hanoi	Environmental and Climate Science, Social Sciences, Geological Sciences

Grants Awarded: Researcher Links Regional Workshop Grant – July 2017 call

Total applications: 5

Total eligible applications: 5

Funded applications: 3 (60%)

Title of project	UK Institution	Vietnam Institution	Subject area
Advanced 5G Wireless Technologies for Smart Road-Traffic Control and Transportation Infrastructure Monitoring Systems	Middlesex University	The University of Transportation and Communications	Electrical and Electronic engineering, Civil Engineering, Environmental and Climate Science
Cost-effective solutions and assistive technologies for low-income aging populations	University of Greenwich	Le Quy Don Technical University	Mechanical Engineering, Electrical and Electronic engineering, Computing Science, Medical Technology, Public Health, Material Science & Technology
Data Analytics for Future Cities Research	Aston University	VN-UK Institute for Research and Executive Education (VN-UK), the University of Danang	Computing Science
