

INTERNSHIP

AT WILL TO LIVE

Pham Thi Hang

What remains after the journey is not the outcomes, but the lessons learned and the people I met along way. I am grateful for this internship opportunity, which taught me thoroughness in work and sensitivity in deep listening. I am also thankful to the learners at Will to Live where I am undertaking my internship for trusting me and sharing their stories that made my experience more meaningful.

Activities

- **Design and creativity:** Learn and practice designing, editing visuals for communication activities
- **Communication and community engagement:** Support the implementation of communication content
- **Counseling and connection:** Assist with enrollment counseling, communicate directly with learners to develop listening and empathy skills
